Dear Mousumi,

Congratulations! Masai School would like to invest in you. You will be joining our Full-time Full stack web course.

As you know, Masai School is a career focused school designed for 21st Century. We have designed our 5 month full stack flagship course in sync with the industry requirements. We provide all the tools for learning so that you can start your career as a web developer by earning atleast 6 Lakhs per annum.

We don't charge **ANY** upfront fees because we believe in an alternate education system which is risk free. We believe education system should rather be about schools investing in students than they investing exorbitantly in schools.

Our campus - We carefully chose our campus by partnering with India's biggest co-working space - 91springboard. Our campus is centrally located in 7th block Koramangala, Heart of Bangalore which is well connected to every part of the city. The reason for choosing 91springboard over any other classroom is very simple - there is no better place to learn coding than being in the environment of 100+ tech teams of various companies.
